

## THE GULF OF CAGLIARI

The Gulf of Cagliari offers the suitable background to host important and spectacular sailing events. Poetto is the beach of Cagliari and Quartu S.E., with its very fine sand. The southwest limit of the beach is the characteristic rocky formation known as the Devil's Saddle under which there is Marina Piccola, a little harbour for tourist craft where you can find the Yacht Club Cagliari, the Lega Navale Italiana Cagliari and the Windsurfing Club. From Marina Piccola, logistic base of the Yacht Club Cagliari and LNI Cagliari to the Quartu Sant'Elena Sailing Center, in the eastern side of the coast, the Gulf will become a magnificent race area and the evolutions of the boats will of course arouse enthusiasm and admiration for these young champions. This background welcomed the first sailors in the 60's. From then on the success of the sailing events organized in Cagliari and, at the same time, the achievement of the local athletes in national

and international regattas, confirmed the qualities of the Golfo degli Angeli. With its morphologic and meteorological conditions the Golfo degli Angeli it's the ideal race area with the almost constant presence of the wind and the mild climate.
